

From Past Staffers:

"It's cool to get to see all these world-class musicians and composers come together and perform. We get to see that just by passing out programs and helping people find their seats."

"I don't always have the funds to see all the concerts I want, this gives me the opportunity to see as many Festival [orchestra] concerts as I want!"

"Most people don't even know what contemporary music is. This is the hub of it—the biggest contemporary music festival in the country!"

"A student should consider the Student Staff Program of the Cabrillo Festival to immerse themselves in the contemporary music world. That's what this festival is all about. There is NO prerequisite. You can just join to find out what this world is like."
